

In her latest campaign ads, Hillary Clinton is [calling](#) for 'commonsense gun laws.'

This is code for: More gun control.

You know who's partially [funding](#) Hillary's ads? The Montana Democrat Party.

This should hardly come as a surprise, and simply reinforces the point that there's no difference between where **Hillary Clinton** and the **Montana Democrat Party** stand on the Second Amendment: **They want to take our guns away.**

Like the well-rehearsed career politicians that they are, both Hillary and Gov. Steve Bullock falsely reassure voters of their strong support for the Second Amendment.

The truth is: Their rhetoric doesn't match their actions.

Hillary [supports](#) a nationwide firearm ban; and when a bill came across Gov. Bullock's desk to prevent Montana from enforcing a federal firearm ban, he VETOED the bill not just [once](#) – but [twice](#)!

Bullock has no commonsense for thinking it's a good idea to allow federal officials to force Montana law enforcement to carry out a Hillary Clinton executive order to confiscate means of personal defense that she doesn't care for.

If you're concerned about our 2nd Amendment Rights please forward this email to your family and friends so they know that Bullock's actions put him right in league with Hillary Clinton's [efforts](#) to 'take our guns away.'

We face no greater threat than a Hillary Clinton presidency and we need a strong leader in the Governor's office to ensure our 2nd Amendment Rights will always be defended and protected.

You can't trust Bullock to be the strong leader we need on the

2nd Amendment: *He has a “[C](#)” rating from the NRA, he VETOED a [series](#) of gun-rights bills, and worst of all he [wants](#) to ‘take our guns away.’*

With an “[A](#)” rating from the NRA and [endorsements](#) from the Gun Owners of America, Montana Shooting Sports Association and the NRA, Greg Gianforte will be the strong Governor Montana needs to always fight and defend our constitutional right to keep and bear arms.
